

Greenfield Community College and Cambridge College Articulation Agreement

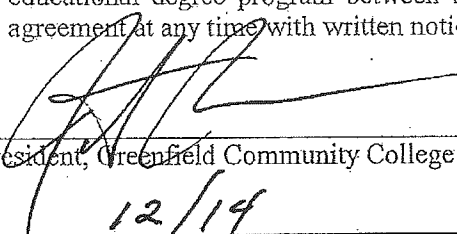

Greenfield Community College and Cambridge College agree to the following terms for the transfer of students from Greenfield Community College beginning with the academic year 2011-2012 and continuing until such time as this agreement is terminated by Cambridge College or by Greenfield Community College.

- I. Cambridge College agrees that students who earn an Associate in Science or Associate in Arts degree from Greenfield Community College under the terms and conditions of completion of Greenfield Community College's core requirements and who meet Cambridge College's admission standards are eligible to apply and may expect the following if admitted:
 1. Students who have completed the Greenfield Community College core requirements shall be considered to have fulfilled the lower-division, institution-wide general education requirements of Cambridge College. In such cases where standardized writing and mathematics assessments conducted at Cambridge College indicate need, further writing and/or mathematics courses may be required to meet Cambridge College proficiency standards. All earned writing and mathematics credits at the associate's level will be honored by this agreement; however, if assessment indicates further work in these areas is required, associate's-level math and writing courses may be distributed as electives within the Cambridge College degree program.
 2. A student who has successfully completed the associate in science or associate of arts degree may transfer all credits of their degree program to Cambridge College School of Undergraduate Studies, allowing the student junior status upon admission to Cambridge College.
 3. Credits earned through examination (AP, CLEP, DANTES, and ACE) that were awarded credit at Greenfield Community College will be treated on an equal basis as other credits earned at regional community colleges. Credits earned through locally developed credit-by-exams will not transfer.

- II. Cambridge College agrees that students who have attended Greenfield Community College without completing the degree requirements for an associate in science or associate of arts but who otherwise meet Cambridge College's admission standards are eligible to apply and may expect the following if admitted:
 1. 1. A student who has completed coursework at Greenfield Community College, but who has not completed an associate degree, shall be considered to have fulfilled the lower-division, institution-wide general education requirements of Cambridge College. To be eligible for inclusion in this policy, the student must have an overall grade point average of 2.0 and an earned grade of "C" or better on all coursework. In such cases where standardized writing and mathematics assessments conducted at Cambridge College indicate need, further writing and/or mathematics courses may be required to meet Cambridge College proficiency standards. All earned writing and mathematics credits at the associate's level at a grade of "C" or better will be honored by this agreement; however, if assessment indicates further work in these areas is required, associate's-level math and writing courses may be distributed as electives within the Cambridge College degree program.

2. A student who has completed any part of the General Education Core shall receive transfer credit for those general education courses that have been satisfactorily completed with a grade of "C" or better at course level 100 or above.

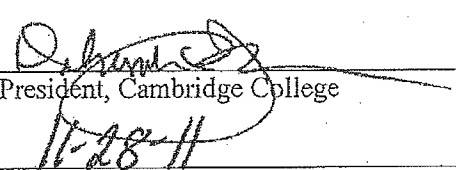

- III. Both institutions agree and understand that specific academic offerings, institutional policies, procedures, tuition and fees will apply and are subject to change. Neither institution can offer any program in perpetuity, so specific future offerings cannot be guaranteed. Both institutions are equal opportunity institutions and shall not discriminate unlawfully against any student, applicant or employee and shall not discriminate on the basis of race, national origin, color, ancestry, disability, age, marital status or gender. The parties agree to review this agreement periodically and maintain good communications to facilitate the ability for students to pursue a seamless educational degree program between the party institutions. Either party may terminate this agreement at any time with written notice to the other party.

Articulation Plan

Greenfield Community College

Transfer Opportunities for Working Adults

2011

Articulation: Greenfield Community College- 2011 Cambridge College

Proposed Articulation Details

With goals and missions that are so closely aligned, Cambridge College – Springfield proposes the following Articulation Plan with Greenfield Community College. The focus of this proposal is to build upon the educational foundation that Greenfield students receive through exceptional classroom instruction.

About Cambridge College

The mission of Cambridge College is to provide academically excellent, time efficient, and cost-effective higher education for a diverse population of working adults for whom those opportunities may have been limited or denied.

As a private, non-profit institution, Cambridge College provides unique opportunities for continuing education through an innovative adult learning model. To date, more than 30,000 alumni have achieved their dream of completing an Undergraduate, Masters, Advanced Graduate Studies or Doctorate Degree Program.

Classes are offered in the evenings and on weekends during three semesters throughout the calendar year (spring, summer and fall).

Credit Transfer Policy

Cambridge College has developed a responsive credit transfer policy that is designed to help individuals with previously earned credits to acquire their advanced degrees in less time than they may have thought.

Undergraduate candidates may **transfer up to 90 credits or an associate's degree** from regionally accredited institutions.

Undergraduate Studies

- Bachelor of Arts in Multidisciplinary Studies (120 credits)
Concentration Option: Early Education and Care
- Bachelor of Science in Human Services (120 credits)

CAMBRIDGE COLLEGE (8 LOCATIONS) – AT A GLANCE

- **Founded: 1971**
- **Average student age: 38**
(undergraduate, 36)
- **Gender: 76% female,**
24% male
- **Diversity: 43% minority**
- **Average class size: 9**
- **Enrollment: Over 8,000**

Locations:

- Cambridge, MA
- Merrimack Valley, MA
- Springfield, MA
- Chesapeake, VA
- Memphis, TN
- Augusta, GA
- San Juan, PR
- Rancho Cucamonga, CA

Articulation: Greenfield Community College- 2011 Cambridge College

<u>Greenfield Degree</u>	<u>Cambridge College Transferable Program</u>
Associate of Science Early Childhood Ed.	Bachelor of Arts in Multidisciplinary Studies: Early Education & Care
Associate of Arts in Liberal Arts	Bachelor of Arts in Multidisciplinary Studies
Associate of Arts in Liberal Arts/ Human Services	Bachelor of Science in Human Services

Curriculum Details

The following tables provide a sample of the comparable semester by semester course work offered at Greenfield Community College and Cambridge College – Springfield. Each student will be required to take the additional courses outlined when transferring from Greenfield to Cambridge College – Springfield.

Students transferring to Cambridge College – Springfield may take a typical course load of 12 credits per semester. Class selection and course work at Cambridge College – Springfield may also vary upon review of each official transcript.

ABOUT OUR PROGRAMS

Bachelor of Arts in Multidisciplinary Studies: Early Education & Care

This program is designed to help students provide developmentally appropriate education and other services for young children in public and private agencies.

Bachelor of Arts in Multidisciplinary Studies

This program is designed for those students who are unsure about their academic concentration but would like to build upon the Liberal Arts Program.

Bachelor of Science in Human Services

This program is designed for students who want to effect positive change in the lives of those they will serve. It is guided by systemic and holistic thinking, the importance of valuing culture, and identifying and working with the strengths inherent in individuals, families and communities.
